## OUR STORY

As prominent builders for over decades, we understand the challenges builders and homeowners face when choosing the right flooring for their home or project. Our goal is to simplify the process by guaranteeing quick turnaround times, excellent customer service and durable products at competitive pricing.

- As each project is different, our team of experienced individuals understand your requirements and tailor your options based of your specific project. To meet the needs of clients, we provide:

- Large selection of quality products from various trusted brands to suite any budget.

- Eco-friendly, sustainable approach from the manufacturing stage to installation.

- Continued innovative technology which increases the durability and quality of the product.

# LVP FLOORING

Rigid Core - Stone Plastic Composite vinyl flooring. As one of the most durable vinyl flooring out there, LVP is known to last throughout the construction process as well as the lifetime of a home. Known for being 100% waterproof, it also provides a dense underfoot making it a great sound barrier. With numerous colours and styles SPC mimics the look of real hardwood and tile for a fraction of the cost.

## 100% Waterproof

All our LVP flooring products are 100% waterproof giving the end user options to have it installed in basements, bathrooms, and kitchens all while knowing no damage would occur.

## DIY Installation

Unilin click systems make it easy for anyone to install, whether a professional or a DIY enthusiast. Ensure the flooring is level and sound, and you're on your way.

**30**

# LAMINATE FLOORING

High Density Fiber Laminate Flooring.

As one of the best alternatives to real wood, at a third of the price there's a reason why laminate has been a staple in the flooring industry for decades. As technology keeps advancing so do the products. All our laminate flooring holds a moisture rating of 50 hours or more, putting the end user at ease installing it around the home or office.

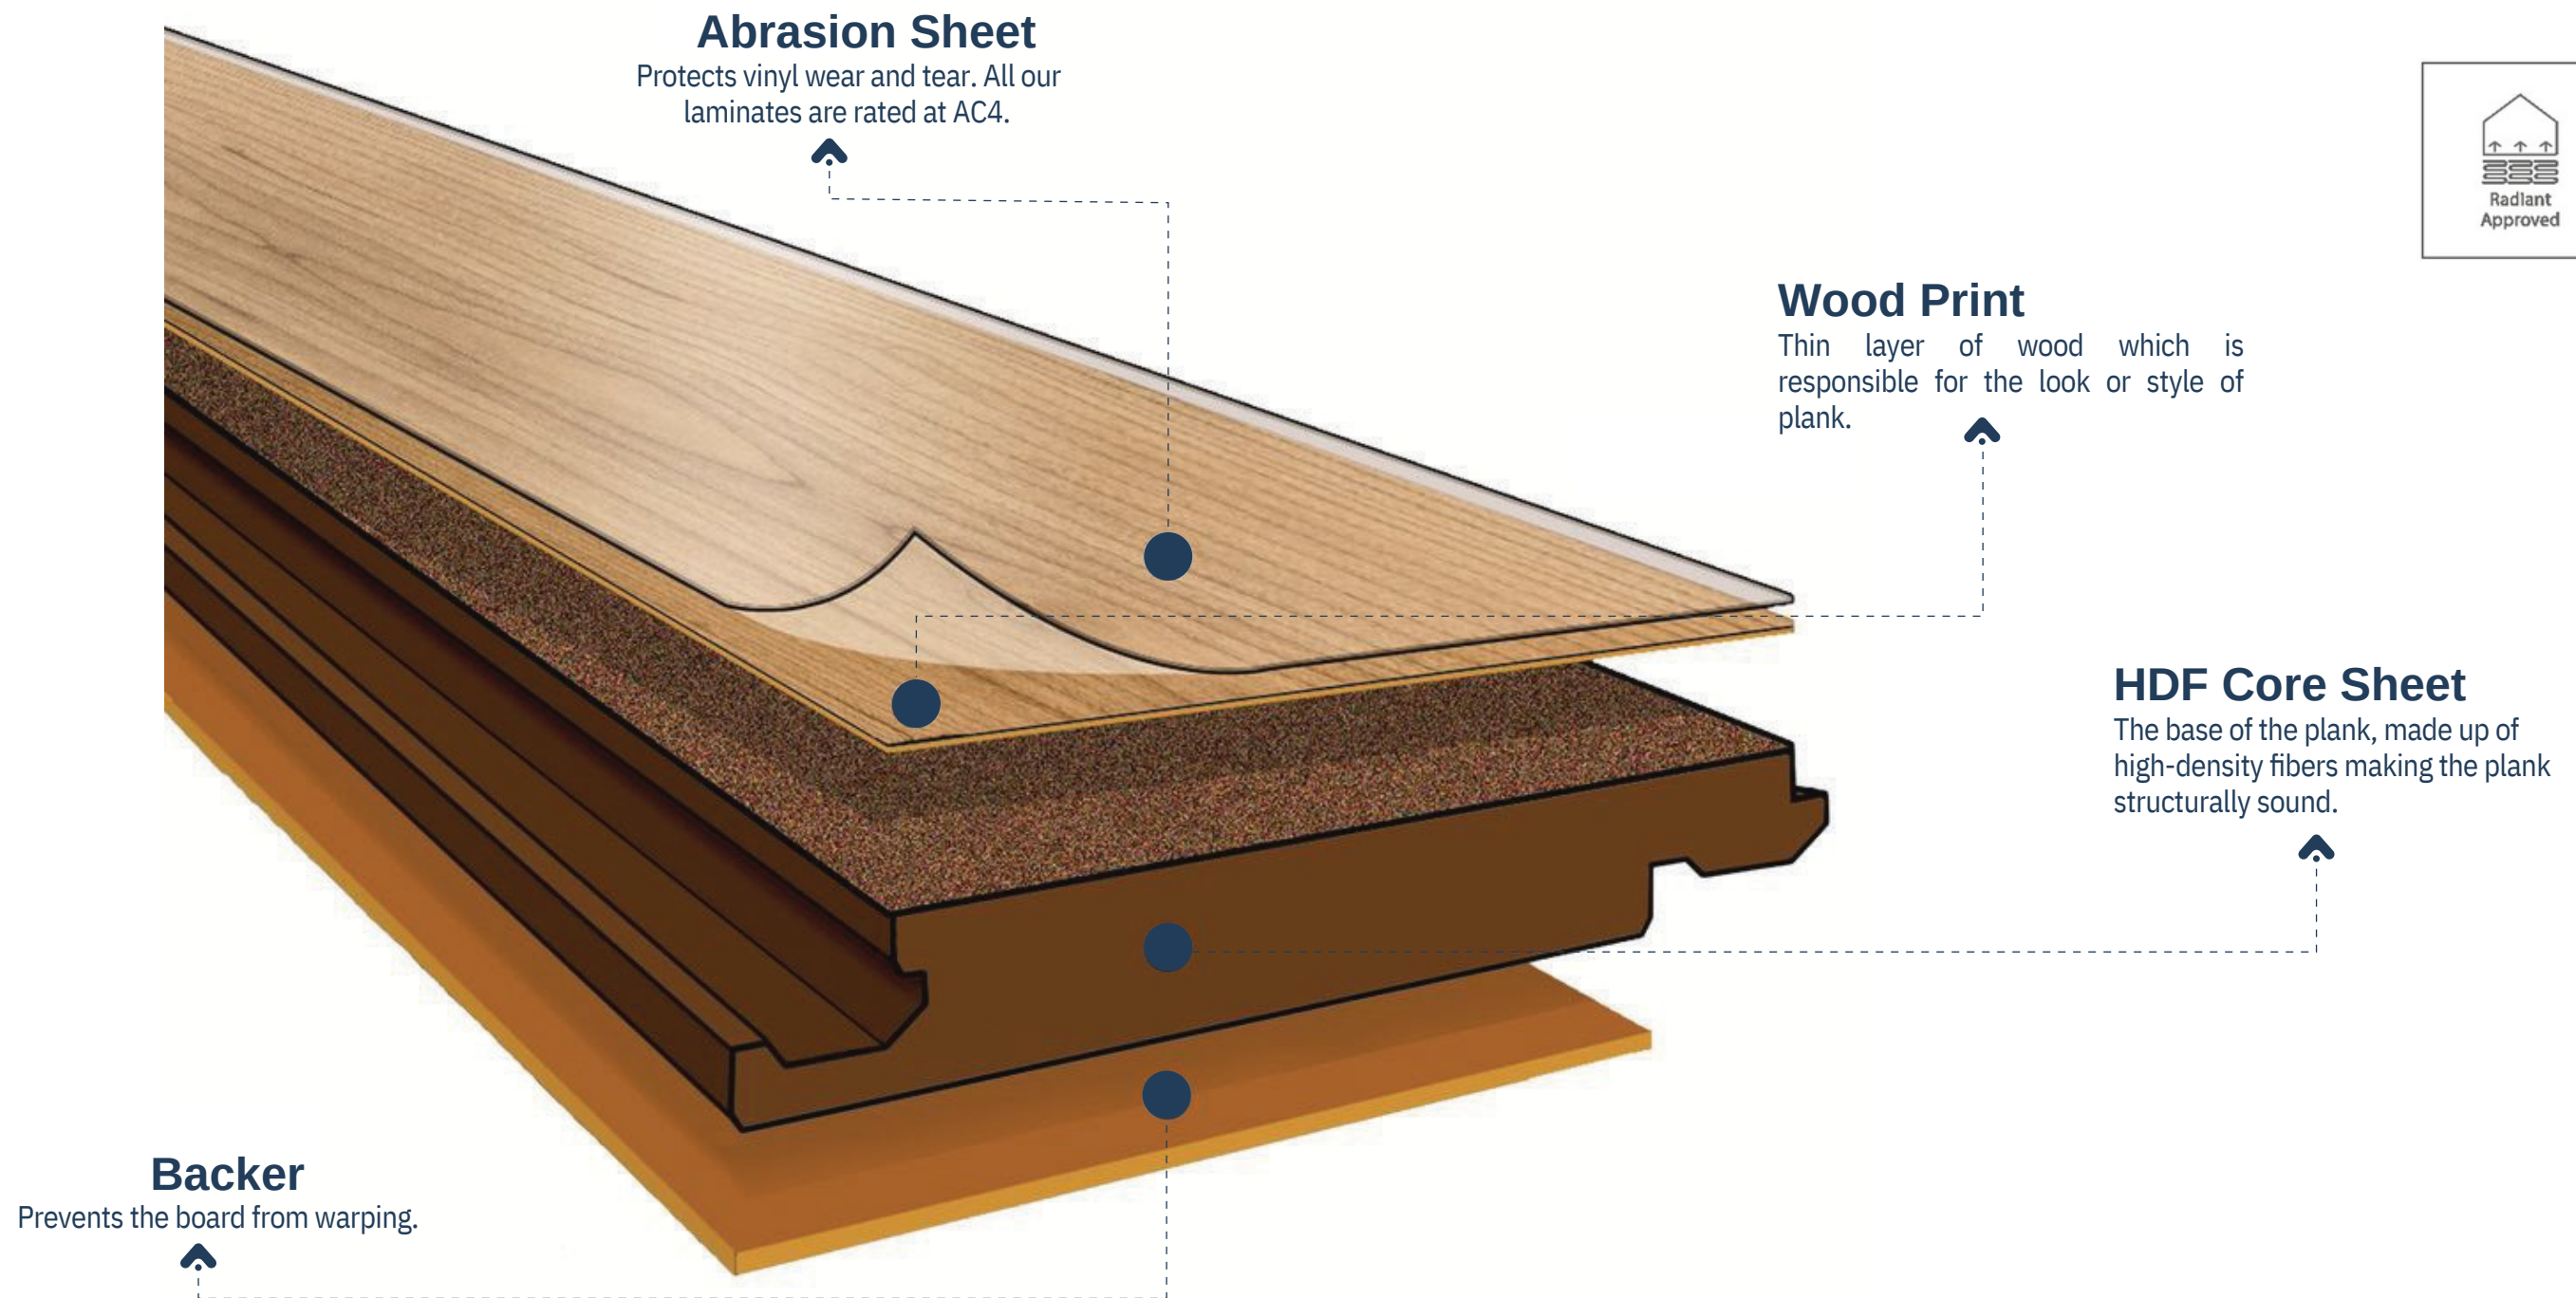

## Floor Score Certified

All our flooring is independently certified by SCS in compliance with the allowable emission level of specific volatile organic compounds.

## DIY Installation

Our 5g click system or Unilin click system make it easy for anyone to install, whether a professional or a DIY enthusiast. Ensure the flooring is level and sound, and you're on your way.
